

Unique Resource for Breast Cancer Patients, Survivors and Caregivers

PINK RIBBON COOKING

*Simple and Healthy Recipes
When Breast Cancer
Invites Itself to Dinner*

Pink Ribbon Cooking, a new online community and resource for Breast Cancer Survivors and their families.

Pink Ribbon Cooking introduces Breast Cancer patients and survivors to healthy cooking from simple and delicious recipes designed just for them. Chef Curtiss Hemm was inspired to create this resource after helping his wife through her Breast Cancer treatment and recovery and the recent loss of her mother to Lung Cancer.

Studies indicate a healthy diet may help minimize the lifetime risk of several cancers, and Pink Ribbon Cooking brings flavor and simplicity to the fight. A monthly membership to the website includes access to an online community, a cooking academy, and access to Pink Ribbon Cooking's e-book filled with nutritious recipes that are simple and delicious. Over 20 new recipes are added each month.

At Pink Ribbon Cooking our commitment for fighting Breast Cancer is only equaled by our passion for culinary excellence.
